General activities during 2010

- Acquired Island Capital which was completed on 22 October 2010;
- Announced the acquisition of Oslo Reinsurance Company (UK) Limited on 21 December 2010 and completed on 10 March 2011; and
- Restructure of businesses to focus on continuing operations, accelerating the transition of our group from a pure run-off acquirer model to a more diversified insurance investor model.

Tawa measure capital extraction and free cash flow generation as its main performance indicators. In this context a \$35 million dividend from KX Reinsurance Company Limited ('KX Re') was received during the period. This represents the extraction of excess regulatory capital and is free cash available to Tawa. Tawa also received approval for \$12 million of capital extraction from its Connecticut domiciled subsidiary PXRE Reinsurance Company ('PXRE'). The \$12 million were used to repay part of the acquisition debt.

Gilles Erulin, Chief Executive Officer of Tawa plc, commented:

We are in the business of leveraging more than our sole equity, we are leveraging our people skills in insurance restructuring, insurance operations and change management to diversify our investment portfolio and provide services which are value creative to our clients.

In 2010 we accelerated the transition of our group from a pure run-off acquirer model to a more diversified insurance investor model. Pro is definitely providing the Group with a larger footprint in the market, the benefits of which are now beginning to show through.
